U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On JULY 4, 1976
- Export shipments in
Current Marketing Year
- Daily Sales reported
JULY 5 — 13, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of July 15, 1976 (based on reports from exporters during the week ending July 4, unless otherwise noted):

SOVIET GRAIN PURCHASES: Since July 4, several large new purchases of U.S. grain by the USSR have been announced. In the first major wheat and corn transactions between U.S. exporters and the USSR since early in May, the USDA announced grain sales to the USSR totaling 2.2 million metric tons (MT). The new sales include 1.0 million MT of corn and 1.2 million MT of wheat for delivery after October 1, 1976. The new sales for shipment after October 1, 1976, now total 4.4 million MT, including 2.65 million MT of corn and 1.75 million MT of wheat.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 332,800 MT, bringing this year's total commitment to 7.5 million MT. This week's total increase in commitments included 49,700 MT to the USSR, which reflects transfers from optional origin rather than new sales. Some of the significant increases in commitments were to Japan, 59,400 MT; the European Community (EC), 43,700 MT; and Chile, 41,700 MT. Total commitments to Japan and the EC now stand at 821,200 MT and 734,900 MT, respectively. Commitments to Chile total 208,400 MT, representing about 16 percent of total commitments to Latin American destinations.

The apparent export commitment for wheat products for 1976/77 advanced by 101,700 MT, largely on the basis of increased commitments to Egypt. Commitments to Egypt now total 166,500 MT, almost one-half of wheat product commitments to all destinations.

Feedgrains: The apparent corn export commitment for 1975/76 (year ending September 30) advanced by 196,400 MT, the smallest weekly increase since the week ending May 16, 1976. Commitments to the EC and Japan increased this week by 220,100 MT and 62,500 MT, respectively; however, these increases were partially offset by a decline in commitments to unknown destinations of 151,400 MT. Total corn commitments to the EC jumped from 8.6 million MT to 9.7 million MT during the past month. Total corn commitments to all destinations now stand at 41.3 million MT, compared with 29.2 million MT at this time last year.

Outstanding sales of corn for 1976/77 shipment (year beginning Oct. 1) increased by 930,400 MT, largely on the basis of sales to the EC and unknown destinations. Outstanding sales to the EC now total 1.2 million MT, compared with 731,200 MT for the corresponding period a year ago. EC has accelerated its purchasing activity for 1975/76 shipment

as well as for 1976/77 shipment. This probably stems from the deterioration in feedgrain production prospects, especially in France, due to prolonged drought conditions. Outstanding sales for 1976/77 shipment now total 6.3 million MT, compared with 2.9 million MT for the same period a year ago.

Soybeans: The apparent export commitment for 1975/76 increased 20,100 MT, primarily reflecting larger commitments to Japan and Portugal. Commitments to unknown destinations declined 19,200 MT. The week's increase in commitments was the smallest change recorded this marketing season. This situation was largely overshadowed by the initial sale of 800,000 MT to the USSR for delivery in 1976/77, preliminarily reported under the daily system last week. Total commitments to the USSR next season are expected to reach 1.5 million MT when next week's export sales report is released.

Exports during the week were the lowest since last September; 109,700 MT were shipped primarily to Japan (40,800 MT), Portugal (26,000 MT), Taiwan (24,300 MT), and Norway (18,000 MT).

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 81,600 MT, primarily reflecting larger commitments to Poland, the Netherlands, West Germany, and France. Commitments have increased 600,000 MT in the last two months, including increases of about 225,000 MT to the EC and 255,000 MT to Eastern Europe. The total commitment for 1975/76 is nearly 4.2 million MT.

Exports during the week totaled 64,800 MT, primarily to Japan (18,500 MT), the Netherlands (16,400 MT), Poland (10,800 MT), and France (10,500 MT).

Cotton: Export sales for 1976/77 delivery continued active, totaling 130,000 running bales (RB) largely to Japan and Hong Kong. The export commitment for 1975/76 remained unchanged at 3.8 million RB, with the limited new sales offset by cancellations. Total sales during the four weeks ending July 4 amounted to 574,000 RB, 7 percent below the four preceding weeks but 7 times greater than a year earlier. The outstanding sales remaining to be delivered this season are largely to Japan, the Republic of China (Taiwan), and the Republic of Korea.

At 92,000 RB, the weekly export pace quickened as the 1975/76 marketing year draws to a close. Exports now total almost 3 million RB.

The USDA export projection was revised downward 3 percent to 3.3 million RB, implying that almost 500,000 bales of the 1975/76 export commitment will not be shipped until after August 1. Therefore, the 1976/77 export commitment exceeds 2 million bales.
